Dialogue 1

Ethics and Education Research: Challenges to the Biomedical Model

Paul G. Braunschweiger, Ph.D., and Kenneth W. Goodman, Ph.D.
University of Miami

12 Noon, Friday, September 27, 2002
Merrick Building 316 (Coral Gables Campus)

Lunch will be provided

Human-subjects research is much more than randomized clinical trials. In the social sciences, humanities and other domains, research is increasingly complex – and the rules of consent, risk minimization and confidentiality do not always apply in familiar ways. This Dialogue will feature a discussion of the challenges of research that informs practice and theory in education.

Dr. Braunschweiger is Professor of Radiation Oncology and Director of Research Education. Dr. Goodman co-directs the University’s Ethics Programs.

Dialogues in Research Ethics is a series of monthly conferences. For more information, phone UM Ethics Programs at 305-243-5723 or send E-mail to ethics@miami.edu.

Co-sponsors:
- Vice Provost for Research
- Office of Graduate Studies
- Department of Microbiology and Immunology
- UM School of Education
- Research Service of the Miami VAMC
- S. Florida VA Foundation for Research and Education
- Department of Molecular and Cellular Pharmacology
- Mailman Center for Child Development
